

Om Fire Curtains announces launch of Industries first patent pending fire curtains designed based on its proprietary “Singarrel™” technology.

Ahmedabad, Dated April 1, 2019.

Om Fire Curtains is pleased to announce launch of newly designed fire and smoke curtain range based on its proprietary Singarrel™ technology.

Our customized innovative solutions designed based on Singarrel™ technology comes with extended protection and design flexibility. Products designed based on Singarrel™ technology are also compact and energy efficient

Some of the key features of products customized based on our patent pending Singarrel™ technology are:

1. Capability of extended protection for the width of more than 8 meters without overlap.
2. Compact hood box for even non-linear installation.
3. Self-closing exit route.
4. Abilities to be customised for non-linear facilities like L-shape, Z Shaped, Zig Zag shaped, square, rectangle and so on.
5. Prompt closer for the curtains with height of more than 5 meters.

While announcing the launch of its proprietary Singarrel™ technology, Mr Ashit Padhya, Managing Director of Om Fire Curtains added “We are into fire curtains space since past 10 year. We have always focused on identifying solutions to our client problems. I am sure our customised and innovative solution under Singarrel™ technology which benefits our clients to solve their fire safety issues due to limitations of space. We are actively working on commercialization and extended patent protection in all major global markets. We look forward to hearing from our new and existing customers”
